— Mrs. Violet Swain, Cor. —

Nine members of the East Andover Community Club weathered a heavy snowstorm and attended the regular meeting at the home of Mrs. William Crocker Sr. on March 10. Pres. 20 SECONDS with the NAZARENE

Physical thirst was a part of the prolonged torture of crucifixion. On the Cross Jesus cried, "I thirst!" (Jn. 19: 28)

What a paradox that He who came to offer "living water" that men might never "thirst" should ever suffer such anguish.

"This man was God; He suffered, died for me! Can I do less than live for Him?"

BETHEL AND VICINITY

Merton Edgerly of Norway visited his sister, Virgie McMillin, over the week end.

Mr. and Mrs. David Thompson, Mrs. Hazel Truward, Mrs. Ruth Hastings, Mrs. Vance Richardson, Mrs. Ernest Knight, Mrs. Gay Gibbs, Mrs. Harlan Hutchins, and Mrs. Richard Waldron attended the concert by Margaret Tynes, soprano, at Abbott Auditorium, Stephens High School, in Rumford on Tuesday evening.

Like many other individuals in Oxford County, my business depends largely on the recreation and tourist trade for most of my profit. Like many others, I do slowly and on a limited scale anything that I can to promote and improve this type of business.

Recently in Oxford County, an Area Development Organization has been started to assist towns and work on a county basis. In Bethel, Me., an area development organization has been organized for six years. They work for Bethel and surrounding towns. Both of these new organizations are concerned with both RECREATION, AL and INDUSTRIAL development.

The fact that such organizations have been formed is a very good indication that there is a NEED for and interest in such development by the people of this area. My primary interest is in the recreational development and in the rest of this article I will discuss only this aspect.

I heard Mr. Bachman's address at Bethel recently. (He is the commissioner of DED). I was pleased to note that he is aware of and interested in the recreational development possibilities and potential of this area.

While I was discussing recreation with some of his staff members at Augusta recently, I learned that basically the only present help that the department is able to give people in the state, is a big promotional program for projects that we, as local groups, have developed by ourselves.

They recognize the need for a few trained and capable personnel in the state DED to work on a full time basis throughout the state, to assist local organizations to recognize their opportunities; to coordinate their activities with other towns and to assist with the planning and developing of the various local projects.

Many small towns and groups of interested citizens want to do something to improve and increase their recreational income but don't know what to do or how to do it. With professional guidance they would accomplish a lot more and do it faster.

Competition between the New England states for this type of trade is becoming keener each year. The small neighbor state of N. H. spends triple the amount that Maine does to attract tourists and vacationists. We have great natural resources in our state. These resources are our scenery, climate and friendly hospitality. To profit from this we must be ready to develop and publicize what we have.

This year we will be choosing our representatives to the state Legislature and Senate. These people that we elect will determine what funds will be provided for the various state agencies and to some extent, how these funds will be used. Now is the time to ask the candidates for state office how they feel about this problem. Will they vote funds to the DED for the purpose of hiring a few professional men to aid in the development of recreational projects.

If we make it clear to the candidates at political meetings and party caucuses that we consider the matter essential and urgent, I think the next Legislature will vote the funds for the needed new personnel for the DED.

If we speak up at party caucuses maybe both political parties will appreciate.

LETTERS TO THE EDITOR...

On a recent trip to the state house at Augusta, Maine I visited the Department of Economic Development to discuss the advancement of the Recreational and Tourist business in Oxford County.

We wish to thank the American Legion for providing the people of Bethel with a skating rink. We realize that it took many hours of work and we would like the Legionnaires to know that their efforts have been greatly appreciated by Mr. and Mrs. Stan Davis, Tom, Andy, Susan, Michael and Betsy.

We commend any man who shows interest in how his tax dollar is spent. The records and itemized bills are available to any citizen, through the Selectmen of Bethel, Newry and O. lead, and through the Superintendent of Schools.

LETTERS TO THE EDITOR...

On a recent trip to the state house at Augusta, Maine I visited the Department of Economic Development to discuss the advancement of the Recreational and Tourist business in Oxford County.

We wish to thank the American Legion for providing the people of Bethel with a skating rink. We realize that it took many hours of work and we would like the Legionnaires to know that their efforts have been greatly appreciated by Mr. and Mrs. Stan Davis, Tom, Andy, Susan, Michael and Betsy.

We commend any man who shows interest in how his tax dollar is spent. The records and itemized bills are available to any citizen, through the Selectmen of Bethel, Newry and O. lead, and through the Superintendent of Schools.

BICYCLES

For the past several years bicycle riding on the Gould sidewalks has been an increasingly bothersome problem. Already this year they have experienced trouble and would like to remind everyone about the town regulations pertaining to bicycles. Some of the Gould walks are, by arrangement with the town, used as public ways, and, therefore, subject to the same rules governing other town walks.

Not only do the riders become a hazard to pedestrians and do damage to the lawns and shrubbery but frequently they race across the highways and jeopardize their own safety.

The Academy hopes the parents of these youngsters will recognize the danger and help control the problem.

and stenographers to fill essential positions in its administrative offices. To help meet that need, Miss Louise Antonou, civilian Navy Representative, will be located at the Navy Recruiting Station, 76 Pearl Street in Portland, telephone 774-0101 (by appointment) from March 30 through April 11.

Salaries range from \$70 to \$90 a week with promotional opportunities. Benefits include a five day week, interesting assignments, at least 2½ weeks' paid vacation, sick leave, group hospitalization, nursing service, optional life insurance and non-profit cafeterias. Housing is arranged by Navy in advance of arrival.

Applications are being accepted for filling immediate vacancies as well as for openings at a later date. Those selected may be assigned to offices dealing with administration, personnel, medicine, accounting, law, or research and nuclear programs. The necessary requirements are a minimum age of 17 years, ability to type at least 40 words per minute and, for stenographers ability to take dictation at 80 words per minute.

According to Miss Antonou, employees enjoy recreational and social activities in the Navy Department and take advantage of the many Washington events from outdoor and indoor stage productions to paddling boats on the Potomac to famous art collections and concerts to State Society dances.

Four leading universities afford Navy civilians the chance to attend night school for further education and even greater job opportunities.

Things have changed a lot since a Chevy was only a Chevy. Especially your ideas of what you want a Chevy to be.

So now you have the Jet-smooth Chevrolet—17½ feet of pure luxury, bumper to bumper. The size makes it a luxury car. But not the price.

Or you can choose the thrifty Chevy II, a 16½-foot family car with all kinds of passenger and luggage space.

This year, your choice might be the new 16-foot-plus Chevrolet, sized to fit nicely between Chevy-

rolet and Chevy II (and between parking meters, with five whole feet left over).

Then, too, there's the sporty 16-foot Corvair, so right for so many people (you girls, in particular) that we've never touched an inch of it. And finally, Corvair—still 14½ feet and still too much for any true sports-car lover to say no to.

The long and short of it is, you don't have to go to any length to find exactly the kind of car you want. Just see the five different lines of cars at your Chevrolet dealer's.
